

Senior Faculty in Cancer Biology

Department of Chemistry and Molecular Biology
North Dakota State University

The Department of Chemistry and Molecular Biology (<http://www.chem.ndsu.nodak.edu>) is seeking outstanding applicants for a tenure-track senior faculty (associate professor or higher) position in, but not limited to, cellular processes controlling tumorigenesis.

The department has excellent modern facilities with an annual research expenditure exceeding \$3 million. Since 2001, faculty from the department have spearheaded a nationally competitive Center of Biomedical Research Excellence (<http://www.ndsu.nodak.edu/cobre>). The center has recently secured five additional years of NIH support and its scientific goals are focused on human health disorders, including cancer and asthma. The center has state-of-the-art Biology and Synthetic Chemistry Core Facilities. The candidate is expected to maintain a vigorous NIH supported research program and participate in the educational mission of the department by teaching graduate and undergraduate students. The department offers M.S. and Ph.D. degrees in both Chemistry and Biochemistry/Molecular Biology.

The candidate should have a Ph.D. or M.D./Ph.D. degree in chemistry, biochemistry, molecular biology, or a related field. A demonstrated record of a nationally competitive research program in Cancer Biology or a related field is required. Applicants must be able to communicate effectively in spoken and written English. This position will have a competitive start-up package and salary will be commensurate with experience. Review of applications will begin November, 1, 2007 and will continue until filled. Qualified applicants should send a letter of interest, statement of research interests, curriculum vitae and three letters of reference to:

Mukund Sibi, Ph.D.
Department of Chemistry and Molecular Biology
North Dakota State University
1231 Albrecht Boulevard
PO Box 5516
Fargo ND 58105-5516
